Hi fellas: horain

Confirming 160 meter CW QSO with W9YT at 0650 GMT 24 February 1962 during 160 CQ Contest 579

Rig Viking Ranger 50w, Collins 75A receiver, 137 ft Vertical Antenna, RG8U feeder, 6 radials.

Contest doesn't give any time to get acquainted, so don't even know the operators name - hi - Don't work many Wisconsin stations on 160. I'm working on 160 meter USA Counties award and would appreciate QSL from DANE County. Best of DX and 73

Willie
